

Proof of Work

Soal : Time Travel
Pembuat : Rifqihz

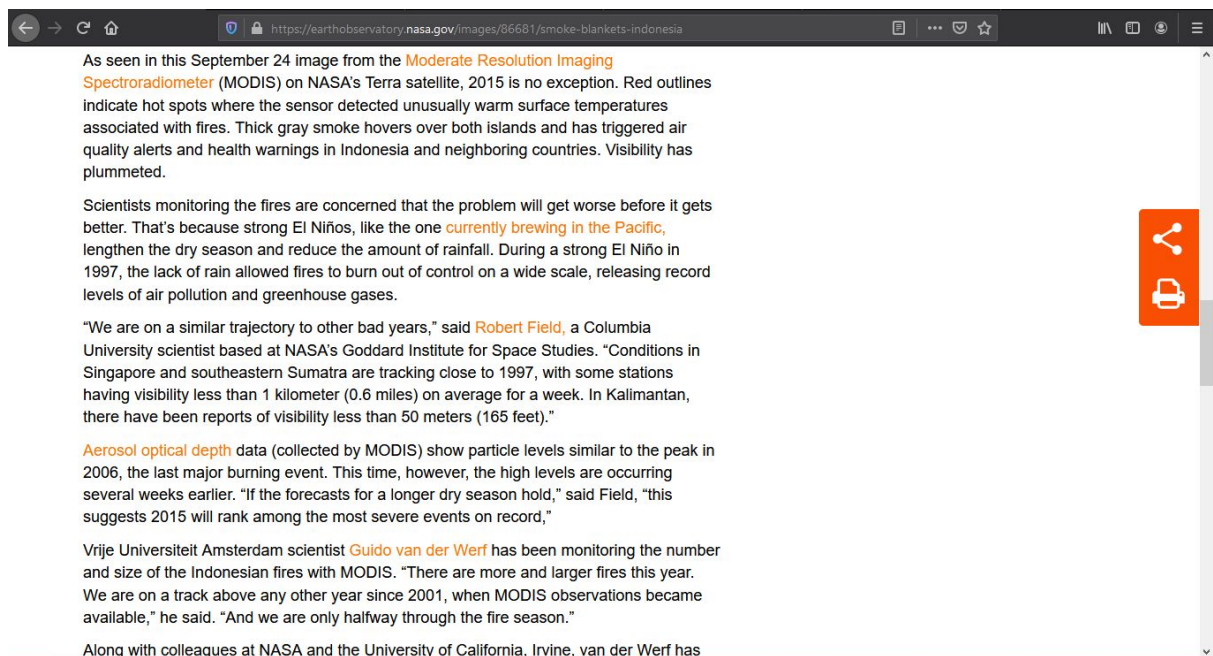

Dari gambar yang diberikan, di reverse image menggunakan google images. Setelah itu dicari artikel dengan ukuran yang sama dengan gambar yang diberikan yaitu 7200 x 4800

Setelah itu buka website tersebut

<https://earthobservatory.nasa.gov/images/86681/smoke-blankets-indonesia>.

Lalu peserta diharap mencari si peneliti dari Universitas Kolombia yang terdapat di dalam artikel yaitu bernama **Robert Field**

Peserta dapat mengklik link tersebut dan akan tampak profil dari Robert Field

Link : <http://www.columbia.edu/~rf2426/>

The screenshot shows the homepage of Robert Field, an Associate Research Scientist at Columbia University. The page is divided into several sections: Contact Information, Research Interests, Full CV, Education, and Publications. The contact information includes his address at 2880 Broadway, New York, NY 10025, and his email and Twitter handles. The research interests focus on climate modeling, biomass burning, and stable water isotopes. The full CV section is highlighted, indicating it is the current page. The education section lists his PhD from the University of Toronto (2010), MSc from the University of Alberta (2005), and BSc from the University of Alberta (1999). The publications section lists several papers, including one on the Global Fire Weather Database re-analysis and short-term forecast products, submitted. Other papers include modeling the QBO with Interactive Ozone Chemistry and Radiation, submitted, and a paper on connecting Indonesian fires and drought with the Type of El Niño and Phase of the Indian Ocean Dipole During 1979–201, published in the Journal of Geophysical Research - Atmospheres, 123, 7974–7988, doi: 10.1029/2018JD028402, 2018.

Selanjutnya peserta dapat mencari laporan penelitian pada tanggal 6 juli 2018 di bagian **Full CV**.

Link : http://www.columbia.edu/~rf2426/index_files/Field.CV.pdf

The screenshot shows a PDF document titled 'Field.CV.pdf' from Columbia University. The document is a list of media mentions and publications. The first mention is 'Could Indonesia's mega-fires return in 2019?', Uncearthed, Joe Sandler Clarke, September 24, 2018. The second is 'Forecasting Fire', NASA Earth Observatory, Kasha Patel, July 6 2018. The third is 'NASA Rainfall Data and Global Fire Weather', NASA GSFC Scientific Visualization Studio, Ryan Fitzgibbons, June 28, 2018. The fourth is 'Here's what Indonesia is doing about its deadly haze from forest and peatland fires', Ensia, Nithin Coca, August 15 2017. The fifth is 'Wildfires cause evacuation of Olympic Venues near Rio', Washington Post, Des Belier, August 15 2016. The sixth is '2015 Indonesian fire activity and smoke pollution show persistent non-linear sensitivity to El Niño-induced drought': coverage in National Geographic, New Scientist, Gizmodo, The Straits Times, Phys.Org, Deutsche Welle. The seventh is 'NASA Goddard Space Flight Center Wildfire Live Shot, July 29, 2016 for TV, radio and print. The eighth is 'Climate Change's Fingerprints All Over California Wildfires', Climate Central, Bobby Magill, July 2016.

Nama teman peneliti perempuannya adalah **Kasha Patel**. Lalu cari nama Kasha Patel di wikipedia dan di bagian bawah terdapat External Link menuju website pribadinya .

2012, Patel obtained a bachelor's degree in chemistry from Wake Forest University.^[10] Before starting her comedy career, she also attended Boston University to study science journalism.^[9]

Career [edit]

Patel's comedy career began in 2014. She moved to Washington, District of Columbia in 2013.

In 2015, Patel published a study of the citizen science effort *Aurorasaurus* St. Patrick's Day Storm.^[11]

Patel performed at the 2018 American Association for the Advancement of Science conference where she also presented several topics for NASA.^[11] In 2018, Patel was featured as one of the top undiscovered comedians in the US.^[2]

Patel has also discussed her synthesis of science and comedy during a TEDx Tysons event.^[12]

I CAN TALK ABOUT MYSELF

Kasha Patel was listed on Thrillist magazine's "Best Undiscovered Comedians in the US" where she was called a unicorn for her uniqueness. She primarily focuses her jokes on her life as an Indian-American and science, producing one of the only science-themed comedy shows in the nation. She also hosts and acts as emcee for monthly book-themed comedy shows, weekly mics, and special events.

Kasha presented a TEDx talk called "Sneaking Science into Stand-Up" where she shares a series of surprising revelations pulled from her analysis of more than 500 of her stand-up jokes. She has also been featured in *The Washington*
